A Note on the MTRS and the New Tax Law (EGTRRA)

The Massachusetts Teachers' Retirement System is a defined benefit plan that operates as a qualified employer plan under Section 401(a) of the Internal Revenue Code. Through December 31, 2001, we were only able to accept, as tax-free transactions, eligible rollover distributions from other 401(a) retirement plans and certain other eligible plans to purchase service credit.

On January 1, 2002, the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) became effective. This new law greatly expands the portability of your retirement plans by allowing you, in certain circumstances, to roll over funds between certain defined contribution plans and government pension plans. As a result, we can accept an eligible trust-to-trust transfer for the purchase of service credit. Typically a trust-to-trust transfer is a transfer of funds from a governmental 403(b) or 457 plan to which you continue to contribute.

For your reference, below is the relevant excerpt from the System's regulation regarding rollovers.

Rollover Distributions and Trust to Trust Transfers under the federal Economic Growth and Tax Relief Reconciliation Act of 2001

12.03 Trust to Trust Transfers.

The Board may accept a direct trustee-to-trustee transfer from a deferred compensation plan under Internal Revenue Code Section 457(b) or a tax-sheltered annuity under Internal Revenue Code Section 403(b) for the purchase of permissive service credit, as defined in Internal Revenue Code Section 415(n)(3)(A), or a repayment to which Internal Revenue Code Section 415 does not apply by reason of Internal Revenue Code Section 415(k)(3). Such transfers will be allowed to the extent permitted by law, subject to any conditions, proofs, or acceptance the Board or its designee deems appropriate.
